PROFESSIONAL EXPERIENCE

Senior Frontend Engineer | UI/UX Development | Deloitte Digital | May 2021 – Present

- Lead frontend engineering and UI/UX implementation for TrueServe, contributing across four workstreams: Salesforce, Admin Console, Conversational AI, and data visualization.
- Collaborated with product, design, and engineering teams to translate complex requirements into production-ready interfaces, maintaining consistent UI quality across Agile delivery cycles.
- Revamped complex data visualization interfaces, improving the structure, visual consistency, and usability of diagram- and graph-based experiences.
- Built reusable UI templates and behavior patterns for a shared component library, supporting consistent design and faster implementation across product features.
- Developed Salesforce LWC and conversational AI interface experiences, including billing-related card templates; partnered with teams on demos and client-ready assets.
- Owned UI quality reviews, prototyping-to-code alignment, and cross-team coordination; supported teammates through design feedback, technical guidance, and delivery reviews.

UI/UX Developer | Wipro | Jun 2019 – May 2021

- Developed custom Salesforce application interfaces with Lightning Web Components (LWC), HTML5, CSS3, Sass, and LESS.
- Translated design specifications into responsive web experiences; investigated usability, cross-browser, and application performance issues.
- Contributed to design reviews and frontend delivery planning, collaborating with engineering teams to refine UI quality and meet milestones.

Senior UI Developer | Ranosys Technologies | Jan 2015 – Jun 2019

- Built responsive web interfaces using HTML5, CSS3, and jQuery, translating mockups into maintainable, reusable frontend code.
- Resolved cross-browser and device compatibility issues and improved consistency across application screens.

Website Designer | Teknologie Koncepts | May 2012 – Dec 2014

- Designed website mockups and implemented approved layouts using HTML, CSS, and jQuery.
- Worked directly with stakeholders to gather requirements, iterate designs, and deliver client-ready web pages.

SELECTED PRODUCT & DESIGN CONTRIBUTIONS

TrueServe Data Visualization: Modernized graph-based UI experiences and supporting visual components.

Behavior Pattern Library: Built reusable UI structures and templates to support design consistency and implementation.

Salesforce & Conversational AI: Delivered interface features and billing-management UI card templates for product workflows.
