

VIJAY KUMAR MANGAL

Senior UI/UX Engineer | Frontend Developer | Web Application Development

Jaipur, India | +91-8385884836 | thevijaymangal@gmail.com | linkedin.com/in/vijaymangal/

PROFESSIONAL SUMMARY

Senior UI/UX Engineer with 14+ years of experience in frontend development, UI/UX design, and responsive web application delivery. Strong background in HTML5, CSS3, JavaScript, ReactJS, jQuery, SFDC Lightning Web Components, SCSS, LESS, Bootstrap, Figma and Adobe tools. Currently leading UI/UX development efforts for Deloitte Digital's TrueServe™ product, with focus on usability, design quality, client-ready assets, and cross-functional delivery

EXPERIENCE

Senior Frontend Engineer | UI/UX Development

Deloitte Digital | May 2021 – Present

- Lead UI/UX development for the TrueServe™ product, delivering user-centric, client-ready digital experiences across web application assets.
- Manage the full UI/UX lifecycle from concept, design, and prototyping through frontend implementation and production support.
- Collaborate with cross-functional teams to improve design reusability, maintain UI standards, and deliver zero-defect user experiences.
- Support frontend development using modern UI/UX best practices aligned with Deloitte Digital standards and client expectations.
- Create client-ready feature demo videos for TrueServe™ to support product demonstrations, stakeholder presentations, and client communication.
- Provide guidance to team members on design quality, usability, collaboration, and delivery execution.

UI/UX Developer

Wipro | June 2019 – May 2021

- Developed custom web applications using SFDC Lightning Web Components, HTML5, CSS3, SASS, LESS, and related frontend technologies.
- Built and maintained responsive, user-focused interfaces with emphasis on code quality, usability, and application performance.
- Prioritized development tasks to meet project deadlines and deliver high-quality frontend solutions.
- Collaborated with team members to troubleshoot technical issues, improve functionality, and enhance user experience.
- Participated in design reviews and recommended UI/UX improvements to strengthen design quality and effectiveness.

Senior UI Developer

Ranosys Technologies | January 2015 – June 2019

- Designed and developed responsive web pages using HTML5, CSS3, and jQuery for user-friendly web applications.
- Resolved browser compatibility issues to ensure consistent functionality across browsers, platforms, and devices.
- Delivered high-quality frontend solutions with strong focus on UI consistency, usability, and zero-defect execution.
- Applied web development best practices to improve maintainability, design quality, and overall user experience.

Website Designer

Teknologie Koncepts | May 2012 – December 2014

- Created website mockups and converted designs into functional web pages using HTML, CSS and jQuery.
- Delivered visually aligned, client-focused website designs based on business requirements and project specifications.
- Worked with clients and stakeholders to gather requirements, incorporate feedback, and refine designs before development handoff.
- Applied web design and usability best practices to improve user experience and support quality delivery.
